EAT OR HEAT?

Yes it's that time of year again when our millions of Old Age Pensioners have to make their Life or Death decisions, as the heading proclaims 'Eat or Heat' sums it up, they literally have to make a decision whether to spend the little pensions that they receive on food or on their heating appliances.

No doubt the cases of hypothermia will hit the headlines once again, and we will no doubt witness on the TV how to 'wrap up warm this winter', but no real effort will be made to encourage neighbours or groups within the community to keep an eye and make sure everything is alright.

Last year the heading on the front of NF News screamed 'Cold Blooded Murder', this year sees it once again ringing true, Mrs. Thatcher, or rather the Conservatives as they are of the same as they accept her decisions, have once again proved to us what a caring Party they are by making a further cut in pensions, and to add insult to injury they have reintroduced the means test, the Old Age Pensioners' only crime is their being Old, we owe our Old Folk a lot, were they not yesterdays labour who toiled to keep our Nation prospering?, were they not the ones who made the ultimate sacrifice on the War fields?, is this the way to treat them?

We urge everyone whether you be supportive of our Movement or not to keep an eye on the Old Folk in your community, make sure they are keeping warm, that they are eating regularly nourishing hot meals, today's society is built upon the belief of the Fit Survive, and tough luck if you fail to keep the pace, the National Front totally opposes such divides, and such blatant abuse of power must be ceased.

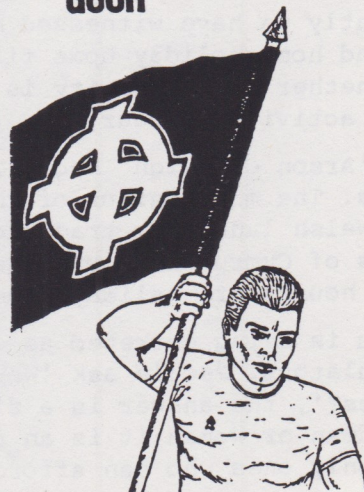

A CRY FROM AN UNBORN CHILD

My Mothers womb,
Where I was warm and safe,
Has become my tomb,
Brutally removed,
Why did she kill me,
I've done no harm to her,
She didn't even wait to see,
If I was a boy or girl,
As if she'd care,
She got rid of me,
Didn't turn a hair,
I could have been a politician,
If so I'd back a bill,
So these evil sluts,
No more can Kill.

MIDDLE CLASS TOOLS

During the Miners' Strike of '84 the Socialist "Workers" Party were not to be seen on any picket lines selling their rag. It is a well known fact that when these scum rear their ugly heads during a dispute that they are outsiders and that they get very, very little (if any) support from the genuine workers. One reason for their non-appearance is that they are afraid to participate in any act that openly links them with "subversive" elements who are considered a threat to the state and its status quo; i.e. this "revolutionary" group fear to take on the state openly.

Another reason is that the miners quite simply did not want to see the S.W.P. amongst their ranks, spreading their vile poison. The S.W.P. fail to grasp the reality of the situation, that the miners are genuine Working-Class people. They have never known luxurious lifestyles, they have been aware of real hardships from their early years. Their families and friends have ties that go back generations. Hence any threat such as Thatcher's dictatorship to crush communities are bound to stir feelings of anger that no Middle-Class Red, no matter how much he or she feels for the "Proleteriat", can perceive and understand.

Those amongst the ranks of the S.W.P. which rant and rave about this injustice and that injustice, will never understand the real needs of the people. They do not want a bunch of limp-wristed students acting out their adolescent period of 'rebellion'.

Maybe the 1984 strike can be considered a mini-National Revolution. This is not a mere romantic notion; it is a warning that as the workers get trodden underfoot and alienated from the better-off, a whole uprising of the masses will be the inevitable consequence- with no place for any traitors!

Those to blame for the Revolt are those who obey the orders of Thatcher and the Union. Those who open their eyes and take a look at what Arthur Scargill did, can see clearly that he betrayed the miners' interests. He took the money and ran. It was the easiest money he ever made. IF THE MINERS CARE ABOUT THEIR CHILDRENS' FUTURE THEY WILL HAVE NOTHING TO DO WITH SCARGILL AND HIS ILK IN THE FUTURE. While giving the impression (thanks mainly to the media) that he was the champion of the miners and all down trodden workers everywhere, he negotiated with the government for the importation of cheaper Polish coal.

Did you know that David Wilkie, the taxi driver who was killed whilst taking a 'scab' to work was an N.F./Ff.C. sympathyser. He supported the miners' strike and was merely doing his job.

David Jones, the first miner killed on picket duty, was also an N.F./Ff.C. supporter.

FREE WALES?

Recently we have witnessed much hysteria in the media regarding the emotive issue of the second home/holiday home fires. Far from getting the Ff.C./N.F. embroiled in an argument of whether this activity is right or wrong, we've chosen to look into the symptoms of why such activities occur.

The 'Arson Campaign' began in 1979, so why have the politicians ignored this issue for 9 years. The mass influx of the wealthy English business-type has seen a drastic erosion of the Welsh language, traditions and culture, in previously unspoilt rural-areas. In some areas of Cymru whole villages remain ghost-towns for much of the year as most (if not all) houses are holiday homes.

Cymru is being marketed as a land solely in existence to cater for the wishes of the speculators. People ask 'Why don't the locals in the rural areas chose to buy the properties?', the answer is a simple one; the prices are so astronomical that to the average Welshman or woman it is an unobtainable dream to own one. The middle-class outsiders are the only ones who can afford them.

'Meibion Glyndŵr' (Sons of Glyndŵr), the group who are responsible for the fires, have succeeded in their aim of bringing this problem to the fore, but the politicians have chosen to merely call the perpetrators names and slander them, without for one moment

taking an objective look into the cause of these acts.

It is obvious that amongst the rural population, Meibion Glyndŵr have the support of an overwhelming number of the citizens- otherwise they would have been caught years ago (these people do not terrorise the people like the Marxist I.R.A. do).

Such support was recently publicised by a prominent figure in the Welsh literary circle; Mr. R.S. Thomas, who expressed his admiration for those responsible and caused an uproar amongst our "respectable" political "representatives". One such politician representing the Conservatives chose to ignore the real issue completely and echoed the belief that all Tories hold:- If you have the money, you have the right to live wherever you want. They don't seem to care about the consequences!

Plaid Cymru merely showed their ignorance by claiming Mr. Thomas is the "Welsh version of Jean-Marie Le Pen" who as we all know is a French reactionary right-winger to whom French racists (especially the Zionists) flock. Mr. Dafydd Elis Thomas (the fuhrer of P.C.) said this because Mr. Thomas voiced his concern at the mass influx of English speaking migrants. (N.B. Mr. Elis Thomas of P.C. is the person who said "Nationalism is evil").

Hopefully Meibion Glyndŵr will put their energies into a political solution (and we would like to hear from them so that we can work towards this), but until then and as long as all other political parties refuse to act upon the causes, these fires will continue and unfortunately may lead to a death. On this subject Mr. R.S. Thomas said: "What is the death of one person, compared to the death of a Nation?"

It's always pleasing to see that our youth haven't forgotten their culture and heritage.

Here we have 3 young lads who've made a Celtic Cross for their local church. This is unusual these days because most people (especially the young) are used to living in an 'instant' age, where everything is available on demand. This kind of society leaves no room for workmanship and pride in one's work and so it's always pleasing to see people who're prepared to work for the community instead of being 'doped-up' in front of the T.V. watching Eastenders.

This particular piece is encouraging because the lads have constructed the symbol of Europe's past for a spiritual meeting place.

This is the kind of pride and skill that must be restored.

Cross goes on show

THE WORK OF four South Wales sixth formers will be on show at their local church hall long after their schooldays are over.

They have made a unique Celtic cross as part of a craft, design and technology course and the rector is delighted.

The four lads, pupils at Radyr Comprehensive, Cardiff, took about five months to design and make the cross in wrought iron.

The school was approached by the rector of St John's Church, Danescourt, the Rev William Barlow,

pictured second left, who was looking for a cross for the new church hall. Nicholas Ferrier, Mark Perry and Julian Clark, pictured left to right, and Gary Haines came to the rescue as part of their Certificate for Pre-vocational Education.

The members of the Lower Sixth wanted something modern but based on a traditional design. They produced the cross under supervision from Mr Howard John, head of the craft, design and technology department. The school's next project will be the production of park benches for Radyr.

Fears grow as NF backs Welsh arson

DETECTIVES investigating the latest Welsh nationalist arson campaign are concerned by National Front support for the activists.

As police from six counties joined forces against the extended firebombing campaign last week, a major concern was the unusual degree of organisation, absent from previous attacks.

Mr David Owen, Chief Constable for North Wales, describes the bombers as intelligent and careful planners, adding: 'They can be described as terrorists.'

Responsibility for the recent attacks against estate agents in England involved with Welsh property deals has been claimed by a clandestine organisation calling itself Meibion Glyndwr (Sons of Glendower). But the biggest blitz so far—nine incendiaries planted at offices 160 miles apart, from the Bristol Channel to Mer-

seyside—has increased speculation that an extremist alliance has superseded the freelance oddballs and arsonists emboldened by drink.

The fact that the latest targets have been widely dispersed—Gloucestershire, Worcester, Bristol, Shropshire, West Kirby and the Wirral—suggests that more than one team of bombers is now operating. The Sons, whose name is hijacked from the fourteenth century prince who fought against the English, has frequently claimed responsibility for fire-raising during the past six years.

In recent weeks, the National Front (NF) has carefully raised its profile in Wales while secretly strengthening its paramilitary training grounds in the backwoods and remote rural areas. It has deliberately tar-

geted areas of high youth unemployment in the traditional communist strongholds of the valleys, presenting a public face of youth concern while digging into nationalist movements and forging links with violent extremists.

Leaflets printed in both English and Welsh have been distributed by NF activists calling on Welsh youth to 'join the national revolution', which is 'neither Left nor Right—but a third way for Wales'. A 'spiritual rebirth' is promised by the movement that 'genuinely struggles for the benefit' of the Welsh people.

Last month's issue of *National Front News* went further with front page billing given to the Meibion Glyndwr firebombers. The official NF organ states: 'A group of genuine Welsh Nationalists have reacted to (Plaid Cymru's) total failure to stand up against the mass purchase of over 20,000 second homes by wealthy English buyers.'

Mr Dafydd Elis Thomas, Plaid Cymru leader, has consistently claimed that police are 'looking in the wrong direction', and is convinced the responsibility for the attacks lies with 'right-wing extremists'.

Reproduced on the left article which appeared Observer, which is considered a quality type newspaper, the type of publicity was only a small amount that we attracted due to the inclusion in NFN 108 of an article putting across our own response to the activities being perpetrated by the organisation who go by the name 'Meibion Glyndwr', of which called for those responsible to cease this kind of action and to join with our Movement which is able to air our peoples grievances through political action.

Amongst the other reports our activities attracted were a ten minute item on Radio Cymru, which featured a representative from the well known lie-sheet 'Searchlight', and Dr. Dafydd Elis T. the president of Plaid Cymru who took full advantage of this opportunity given to him to make his outrageous accusations against us which were not exposed for the blatant lies that they were due to us not being allowed any air time.

An interview was held on Radio Wales by one of their reporters and Patrick Harrington which attracted a bit of interest from members of the general public.

But the most encouraging thing

was learning about the Labour Party holding a press conference which saw them making a statement that amounted to our being branded as fascists who are using Welsh Nationalism for our own ends!, they then went on to accuse Plaid Cymru of not being completely honest in their dealings with the police, and it saw them telling P.C. to stop accusing us of being responsible for the arson campaign unless they are able to produce some kind of evidence to link us with it.

This was later the topic of discussion on the S4C news programme, with a representative from Plaid and Labour airing their views about our threat and how we should be stopped, later they exchanged niceties which saw the Plaid representative threaten court action for the libelous accusations made by the Labour rep. that Dafydd Elis is the man behind the campaign.

In both these parties desperation to halt any further decline in their membership they aimed their attacks on our Movement, but to all those viewers who witnessed that interview, those who hold the Cause for Freedom dear to their hearts, both these 'respectable' Parties are nothing but a futile waste of time.

So, our message is spreading further afield, and all genuine Welsh Nationalists are taking notice, every day sees a further erosion of our peoples self-respect, and more and more of the population are starting to doubt the legitimacy of the 'Britain is a Democracy' claim, if you are willing to be a part in building for our Nation a decent future you belong in the NF.

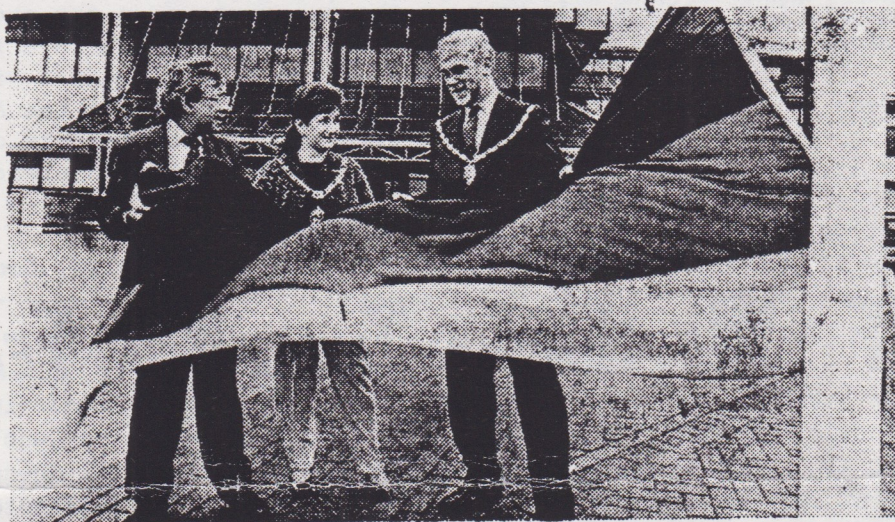

TERRORISM WINS AGAIN!

"ANC flag flies at County Hall", that was the headline that proclaimed to readers of the 'Western Mail' of 19 October the decision by our council 'representatives' to allow the flying of this terror organisations colours atop Council property. Pictured below is the flag being held in the grubby hands of three who condone the systematic terror campaign against innocent citizens within the borders of South Africa, which has seen their activities causing carnage not only amongst the White population but also the Black, it is clear that such claims made by them that they aim to free the people is nothing but a blatant lie.

Their aim is to replace the repressive government currently holding the reins of power with their own government which would be equally if not far more repressive than that which exists today, the only solution is that favoured by all Third Positionists which is to establish Nation States, which would **put to an end** the existence of such organisations who seek to take advantage of the Racial strife and encourage actions motivated by Race-Hatred.

With this sit Race will be region which on be their bility, the Racial groups niely in favour would be of be People and co a decent life eging other exist have vo roval of this, is such an ob tive to the no attention to it by the outlets, who all have their

The ANC leadership know that they are on to a good thing because they know that those who hold the reins of power, hold the power of the Countrys assets mainly Gold, the peoples lot will not change, they will still be taken advantage of for their labour, the tin shacks will still exist, they will still bear the brunt of the rhino-whips both Black and White, and the leaders will be patting themselves on each others' backs sipping their champaign, any organisation that achieves **its** objectives (in this case seeing itself being placed in charge), is clearly not going to benefit the population, due to their thinking with the gun and anyone who voices disagreement will face their unopposed gun squads, one tyrannical form of governing displaced by another, in the name of 'freedom'.

Those who seek power 'at any price' must be shown for what they are, enemies of the people! that is why the flag must be torn down unless of course you accept it and thus you accept tyranny?.

NF STICKERS

**REMEMBER OUR WAR DEAD -
NO MORE BROTHERS' WARS!
FFRYNT CENEDLAETHOL CYMRU
Wales National Front
P.O. BOX 340
CARDIFF, CF1 7UX**

NOW AVAILABLE! Local stickers. These stickers (Approx. 3½cm X 9cm) can be obtained from Cardiff NF for just £10 per 1000. They are peel-back and can have any slogan you want on them.

For example Roath NF have had their own stickers made with the slogan 'Keep Howardian High Open'.

●SKINHEADS sporting National Front style emblems were among a small group who protested outside a Merthyr travel agency. Objecting to a planned conference of travel agents in Jerusalem, the protesters distributed literature from the "Campaign for Palestinian Rights" — giving an accommodation address in London — asking people to boycott members of the Association of British Travel Agents.

NF & CPR

United In Struggle

The recent picketing of ABTA travel agents by the Campaign for Palestinian Rights (CPR) has been an overwhelming success, even more so for National Revolutionaries because the CPR has welcomed the help of the NF in all of the British Nations.

Wales NF/Ffc Cymru is proud to have helped this worthiest of causes (especially the Caerdydd and Merthyr Tydfil branches) and we will continue to help the CPR throughout Cymru.

Our partnership with the CPR in picketing various ABTA travel agents has gained us widespread national and local media coverage. It is up to us to keep the pressure up on the pro-Zionist ABTA travel agents. You can help in a few ways:-

1. Give your local ABTA agent a visit and ask him or her if he/she supports the ABTA 1988 conference trip to the terror-state of Israel.
2. Write to your local paper and tell them about the ABTA 1988 conference in Israel, and the CPR/NF's opposition to the trip.
3. Let us know of any ABTA agents in your area you'd like picketed.
4. Send donations to: The Campaign for Palestinian Rights, BCM 9196, London WC1N 3XX.

WALES NF - WE HONOUR THOSE WHO FELL

On Remembrance Sunday members and supporters of Merthyr NF were given permission to join the official procession, who were gathered in Pant and who congregated at the Cenotaph for the two minute silence. Also in attendance was a photographer from the local newspaper who was seen taking photos of representatives of our Movement, who obviously interested in our presence confronted us and asked for a quote for including in the paper as to why we had attended the Remembrance Service here. To which he was told that we felt it would mean more to us if we paid our respects in Wales, to honour the memory of the Welsh soldiers who laid down their lives, while also honouring the soldiers of all the Nations within the British Family, as was seen by our Movement doing likewise all over Britain. Our aim was not to turn it into a means of obtaining attention to ourselves being NF, and as witnessed by the reports in the papers we were accepted as having a right to attend, also thanks to all who attended, a credit to our Movement. Below is a picture of the gathering at the Cenotaph for the wreath laying and two minute silence. Lest We Forget.
